

BOARD UPDATE: 5 March 2018

The AT Board met on 5 March 2018. The following items were discussed:

- Athletics Tasmania and Athletics South are working with Orienteering Tasmania to develop cross-promotional opportunities such as orienteering members accessing cross-country races.
- ATLAS was a success for athletes involved. Going forward an ATLAS committee will need to take ownership of the event planning and delivery.
- The strategic plan has been finalised after numerous meetings with State Government. Following board endorsement, it will be published on the AT website in the week commencing 12 March.
- There has been a poor response to the team accommodation arrangements made for the junior state team. In future accommodation may either be compulsory as a condition of team selection, or all athletes will need to secure their own accommodation.
- The Major Grants program from Community Sport and Rec awarded us the same income as previous years. This increases the importance of seeking sponsorship from the commercial sector.
- Work will commence on the bar upgrade in the function room next Wednesday.
- A board vacancy still exists for the position vacated by Mike Gunson in 2017. We have a preference for someone with marketing and sponsorship skills.
