

Athletics Tasmania

Late Entry and Confirmation Policy

LATE ENTRY POLICY

1. Late entries will be considered in accordance with the relevant Technical Regulations for the event.
2. Late entries will not be offered online. Contact must be made directly with the Athletics Tasmania office.
3. Where a late entry is accepted, a Late Entry Fee (double the event fee) **will** apply to all entries received after the closing date.
4. Late entries will be accepted for Out of Stadium championships (provided that the individual championship event had at least one entry at the time official entries closed) up until thirty minutes (30 mins) before the commencement of the event and upon payment of the above late entry fee.
5. For events where printed programmes are made available, late entrants will not appear if it is not practicable to include them.
6. Late entries will only be accepted where acceptance does not require the conduct of an additional round in the event or the reinstatement of a cancelled event.
7. Late entries may also be accepted where the Competition Director deems that there has been a procedural error.
8. For dates and times before which late entries will be accepted for specific events, please refer to the relevant Technical Regulations and event information.

LATE CONFIRMATION POLICY

(This policy applies only to stadium championships, since confirmation is not required for Out of Stadium championships)

1. Athletes who are in line at the time confirmation closes for their event will be able to confirm. Prior to closing off the event, the judge in charge shall announce in the confirmation area only that the confirmation for the particular event is closing and call on any athletes who have not yet confirmed to come forward.
2. Athletes seeking to confirm at any later time will be permitted to do so upon the payment of a late confirmation fee of \$2.00. Such athletes will be placed, in the case of track events, in any available lane. There will be no re-draws. In the case of field events, athletes will compete in their original position if the event has been drawn in advance.
3. Where a round was cancelled by virtue of there being insufficient confirmations to warrant it, only athletes confirmed at that time may compete in the next round (which will usually be the final). No late confirmations will be accepted in such circumstances.
4. Where an event was cancelled by virtue of there having been NO confirmations at confirmation time, late confirmations (upon payment of the late confirmation fee) will only be accepted where it remains practicable to restore the event to the program.
5. Notwithstanding the above, NO late confirmations will be received within 10 minutes of the official start time of the event.
